ESTEVEES

FRONTEND DEVELOPER

EXPERIENCE

Medical Record Software | CRUD - JSON Server

2023

This project allows you to **generate records** that can be queried, modified or deleted within a table, using **AJAX** requests to a local **API REST**. In addition, **form validation** and **search filters** were performed with **Vanilla JavaScript**.

Paquete Ibas | Layout and Styles

2023

Built with **Bootstrap**, it's a **multi-page website** for a package service. Each page keeps its navigation bar (with **spy scroll**) and footer, which shows the site's social networks in icons, among other interesting elements such as **carousels** and **information cards**.

Tetris | Canvas, ES6

2023

Inspired by the game Tetris (1985), this site was created to experiment with the functionalities of **Vanilla JavaScript**. It can be played on computers, smartphones and tablets.

SKILL SET

- HTML, CSS, JavaScript
- Bootstrap
- Basic React.js
- Markdown
- SQL (PostgreSQL, MySQL)
- Basic PHP
- Version control Git / GitHub
